Web Development Projects

Personal Portfolio Website

- Conceptualized, designed, and developed a personal portfolio website to showcase projects and skills.
- Implemented responsive design principles using HTML and CSS, ensuring optimal viewing experience across devices.
- Utilized JavaScript to enhance interactivity and user engagement.

Spotify Clone

- Creating a Spotify clone where with a Spotify Api for music playing.
- Designed an intuitive user interface to enhance usability.

Netflix Cone

- Developed a Netflix clone using HTML and CSS

Professional Experience

As a college student, my professional experience is primarily focused on self-initiated projects and collaborative class assignments.

- Independently undertake web development projects to build practical skills and apply theoretical knowledge.
- Collaborate with peers on group projects, contributing to the design and coding phases.
